**ACTION OF
HIDDEN VALLEY LAKE COMMUNITY SERVICES DISTRICT**

DATE: August 15, 2018

AGENDA ITEM: Approve Resolution 2018-07 A Resolution Approving the General Manager to Sign A Contract with Farr Construction DBA Resource Development Company for The Chlorine Contact Basin Repair Project and Establish an Overall Budget.

RECOMMENDATIONS: Approve the attached resolution which takes the following actions regarding the Chlorine Contact Basin Repair Project:

1. Approve the overall Estimated Construction Budget of \$245,888.
2. Determining the project to be exempt from the requirements of the California Environmental Quality Act.

FINANCIAL IMPACT: Based on the recommended award amount, staff is proposing the following overall budget:

Total Estimated Project Construction Budget	\$245,888
---	-----------

Costs associated with this project will be paid from the following funds:

FEMA	\$184,416
Cal OES	\$ 46,104
District Funds	\$ 15,368

Note that the dollar amounts listed for funding by FEMA and CalOES are based on approval by these agencies to increase funding amounts from what they have previously approved.

BACKGROUND: The Chlorine Contact Basin and 2 valve vaults were damaged at the WWTP during the winter storms of 2017. The District applied for and was granted funding through FEMA and OES for repair of the damage. Based on approvals, Coastland Civil Engineering was authorized to prepare contract bid documents for the project. The project consists of cleaning/sand blasting the walls and floor of the chlorine contact basin and placing epoxy coating on the sides and floor; replacing the sump pumps in two valve vaults; relocating the electrical connection and valve actuator controls from inside two vaults to pedestals outside of the vaults; and other various items of work required to complete the project.

Once the construction documents were prepared, the project was advertised for bids in accordance with the requirements of the California Public Contract Code. On August 10, 2018 District staff and the District Engineer conducted the bid opening and one (1) bid was received from Farr Construction California in the amount of \$245,888. This was in excess of the engineer’s estimate for the project of \$181,500. The lack of additional bidders and costs over the engineer’s estimate appear to be primarily due to the busyness of contractors in general.

The District Engineer has reviewed the bid documents submitted by Farr Construction California and found them to be responsive and technically correct. Additionally, Farr Construction California has a valid California Contractor's License and both Farr Construction and their electrical subcontractors have valid Department of Industrial Relations Registration numbers as required by the State. At the bid opening a representative from Farr Construction was in the audience and mentioned that they had done quite a bit of work within Lake County for other agencies. WWTP staff was checking with those agencies to get feedback on their performance.

The award of the contract is to be based on the lowest responsive and responsible base bid received. Based on information received, staff is recommending that the District award the contract to Farr Construction California dba Resource Development Company for \$245,888 and approve the overall budget for the project.

If approved, the work is estimated to start in August 2018 and be completed by October 1, 2018.
